

“Global” Healing with WIDE-USE HERBALS™

The products listed on this sheet have the greatest therapeutic activity of all our herbals. We encourage practitioners to focus on understanding the use of these products first, for they have global healing characteristics.

For example, you might determine that a patient is suffering liver stress and dysfunction. In choosing our Wide-Use Milk Thistle Seedcoat product, **SILMAX™ PC80**, you would very likely help the liver, and additionally would give support to the gallbladder, the spleen, and support the kidney by giving it protection against environmental toxins (specifically, insecticides.)

Wide-Use Herbals™

RELAXATION/ ANTI-STRESS

MAXSED™ Fluid extracts of Hops and California Poppy, extracts of Passiflora, Valerian and Catnip. Our strongest and most broadly active sedative/anxiolytic.

CALISED™ Fluid extract (concentrate) of California poppy. Broad-acting sedative.

Flora-CALM® Passiflora/Valerian fresh plant extract.

LARGE INTESTINE

GENERAL FORMULA

UDG™ TABLETS

CULVER'S ROOT Opens the gallbladder and promotes better intestinal peristalsis and elimination. Non-gripping laxative.

LARGE INTESTINE DRY A formula aimed at increasing intestinal secretion, motility and elimination by activating the liver/gallbladder, and by enhancing autonomic plexus tone.

LARGE INTESTINE DAMP A formula aimed at normalizing loose stool, often caused by the condition of “spleen deficiency” in Chinese medicine.

LARGE INTESTINE BALANCED A formula for generally activating and draining the intestines in individuals who may not have adequate bowel movements, although they generally do not complain of sluggish stool.

SMALL INTESTINE

INULA/Berberis compound Fresh and dried plant extract of Inula helenium. Supports lung, digestive, immune, kidney, spleen and liver function.

IMMUNE

HäHG's:

- GENERAL FORMULA A Stillingia based blood-cleansing powerhouse with Actium, Rumex venosus, and others. Our most powerful herbal next to UDG™ Tablets, with which it is a complementary product. Can be useful in the management of enteric ulceration. Can arrest the progression of deep seated pathologies.
- LYMPH 1 A Ceanothus/Phytolacca based lymph restorative formula.
- LYMPH 2 A Fouquieria/Stillingia based lymph restorative formula.

OREGON GRAPE ROOT Concentrated one-half fluid extract. Supports the important triad: liver, gut, and kidney energy.

U.D.G.™ Tablets & Liquid Concentrate Concentrate of profoundly healing Uncaria tomentosa (Uña de Gato).

ASTRAMAX™ Fluid Extract of Astragalus membranaceus.
